### Material composition

**VENOSAN® 4000:** 18–21 mmHg 23–32 mmHg Custom M2M

71% Tactel® Polyamide, 29% Elastane

VENOSAN® 5000: 18–21 mmHg 23–32 mmHg Custom M2M

40% Tactel® Polyamide, 30% Elastane, 20% Cotton, 10% X-Static® – The Silver Fiber™

VENOSAN® 6000: 18–21 mmHg 23–32 mmHg

70% Nylon Polyamide, 30% Elastane

VENOSAN® 7000: 18–21 mmHg 23–32 mmHg Custom M2M (CII, CIII ONLY)

62% Tactel® Polyamide, 26% Elastane, 8% Cotton, 4% SeaCell® Pure

VENOSAN® 8000 Ulcerfit: 23–32 mmHg 34–46 mmHg

OVERSTOCKING: 62% Tactel® Polyamide, 26% Elastane, 8% Cotton, 4% SeaCell® Pure

LINING: 90% Polyamide, 10% Elastane

## Measurement Size Guide

## Selection Chart

| Orthostatic Stress  | CVI                             | Lipoedema   | PTS   | Lymphoedema   |
|---|---------------------------------|---|---|---|
| The term orthostasis literally means standing upright. Orthostatic stress may be defined as the development of symptoms during upright standing relieved by recumbency. | Chronic Venous<br>Insufficiency | Uneven distribution<br>of fat cells in the<br>subcutaneous regions<br>generally in the legs,<br>arms or abdomen | Post Thrombotic<br>Syndrome (long term<br>effects than can<br>occur after venous<br>thrombosis and their<br>consequences) | Localized fluid<br>retention caused by a<br>compromised lymphatic<br>system |

| Characteristics   | Lipoedema           | Lymphoedema        |
|-------------------|---------------------|--------------------|
| Sex               | Females only        | Males & Females    |
| Age of onset      | Puberty             | Usually Puberty    |
| Obesity           | Yes                 | Variable           |
| Symmetry          | Usually symmetrical | Always symmetrical |
| Swollen feet      | Never               | Usually            |
| Skin consistency  | Normal or thinner   | Thicker & firmer   |
| Pitting of skin   | Usually absent      | Always pits        |
| Easy bruising     | Often               | No increase        |
| Pain & Discomfort | Often               | Infrequent         |
| Tenderness        | Often               | Infrequent         |

## Made to Measure Stockings

#### VENOSAN® 4000

#### **BREATHABLE**

Tactel® climate effect wicks away moisture, so ensuring excellent comfort in wear.

#### **EXTREMELY ELASTIC**

Easy to put on because of the flat stress/strain curve of the knitted fabric.

#### **COMFORTABLE**

Material and visual elegance ensure optimum comfort in wear.

#### Material (CCL. I, II)

71% Tactel® Polyamide 29% Flastane

#### Colour

CCL I (Black, Mexico) CCL II (Black, Mexico, Marokko)

#### VENOSAN® 5000

#### **COUNTERING ODOUR**

X-Static® removes bacteria, so preventing unpleasant odours.

#### **BALANCING FUNCTION**

Optimum comfort in wear is achieved by combining X-Static® silver-coated fibre (the high conductivity of silver regulates the temperature) with Tactel® microfibre (rapidly wicks moisture away from the skin).

#### **ANTISTATIC**

Because of the high conductivity of silver, X-Static<sup>®</sup>, keeps you static-free.

#### Material (CCL. I, II, III)

40% Tactel® Polyamide 30% Elastane 20% Cotton 10% X-Static®-The Silver Fiber™

#### Colour

CCL I & III (Mexico) CCL II (Black, Mexico, Marokko)

#### **VENOSAN® 7000**

Once again we are able to present a genuine innovation: for the first time SeaCell® Pure fibre is being incorporated in VENOSAN® 7000. This cellulose fibre contains brown algae and has very special effects on human skin.

#### **Benefits**

The soft material improves comfort in wear for all those who prefer to feel natural materials against their skin.

- Antibacterial and fungicidal action (inhibits the growth of bacteria and fungi). This effect of SeaCell® Pure is long lasting, even after 150 washing cycles.
- Algae have an anti-inflammatory effect and relieve itching.
- The minerals contained in the algae replenish mineral levels in the skin.

#### Material (CCL. II, III)

62% Tactel® Polyamide 26% Elastane 8% Cotton 4% SeaCell® Pure

#### Colour

CCL I & II Black, Beige CCL III Beige

| f | 22   | 70   |
| g | 23   | 80   |

#### Measurements

Measurements should be taken with the patient standing and if possible, after the leg has been rested and swelling is at a minimum. All measurements should be made on the bare leg.

#### Take care

- Custom made stockings may not be returned for credit.
- The manufacturer cannot be held responsible for incorrect measurements.

#### Guarantee

- We guarantee the premium quality of our VENOSAN® stockings!
- In the event of manufacturing or material faults the stocking will be replaced free of charge within six months.

#### **Measuring points**

**T** waist

**K** centre point of the crotch

**H** hips (over the buttocks)

**G** thigh (5 cm below K)

**F** mid thigh (between K and E)

**E** mid knee (over the kneecap)

**D** 4 cm below the knee

**C** calf at its maximum girth

**B1** beginning of calf muscle

**B** ankle (narrowest part above the ankle bone)

Y heel (foot position 90°)

A beginning of small toe

#### **Compression Classes**

I (18–21 mmHg)

II  $(23-32 \, \text{mmHg})$ 

III (34-46 mmHg)

Measure the arm when it is in the relaxed position. The manufacturer is not responsible for incorrect measurements. Custom made armsleeves cannot be exchanged.

## 4000

Compression Stockings and Armsleeves

#### **CLIMATE EFFECT**

VENOSAN® 4000 is manufactured in a refined sandwich construction and is the first compression stocking in the world to be awarded the Tactel® climate effect label.

#### **BREATHABLE**

Tactel® climate effect wicks away moisture, so ensuring excellent comfort in wear.

#### **EXTREMELY ELASTIC**

Easy to put on because of the flat stress/strain curve of the knitted fabric.

## 5000

Compression Stockings and Armsleeves

#### THE MAGIC OF SILVER

VENOSAN® 5000 combines the natural characteristics of cotton with the antibacterial, regulating and antistatic properties of X-Static® and Tactel® high-tech yarns. A top quality product, developed for active women and men.

#### **COUNTERING ODOUR**

X-Static® removes bacteria, so preventing unpleasant odours.

#### **BALANCING FUNCTION**

Optimum comfort in wear is achieved by combining X-Static® silver-coated fibre (the high conductivity of silver regulates the temperature) with Tactel® microfibre (rapidly wicks moisture away from the skin).

## 6000

Compression Stockings

#### **CLASSIC**

#### **BENEFITS**

- Our development team took up the challenge to prove that medical compression stockings do not have to be designed only with the elderly in mind. The result is a stocking which is sheer and elegant, an indispensable companion for the modern person.
- Thanks to its sheerness and the special yarn combination, VENOSAN® 6000 offers a feeling of well-being no matter what the temperature.
- The 4 sizes and 2 lengths, combined with the highly elastic yarns, make for a stocking which sits perfectly on the leg and allows full freedom of movement in all situations.

 VENOSAN® 6000 can be machine washed, like all modern textiles today

#### **FEATURES**

- Breathable
- Sits perfectly
- Complies with medical requirements
- Ease of care

## VENOSAN® 6000 Size Chart (cm)

For an accurate fit to your exact measurements, use the chart below

| Circumference          | Small    | Medium   | Large    | X-Large  |
|------------------------|----------|----------|----------|----------|
| cB Ankle               | 20-22 cm | 23-25 cm | 26-28 cm | 29-31 cm |
| cC Widest part of calf | 30-39 cm | 33-41 cm | 36-44 cm | 39-47 cm |
| cD 4 cm below the knee | 29-38 cm | 32–40 cm | 35–43 cm | 38-46 cm |
| cG Thigh               | 49-63 cm | 54–66 cm | 58-70 cm | 63-74 cm |
| Length                 |          |          |          |          |

## 8000 ULCERFIT

Compression Stocking System

#### SUCCESSFUL THERAPY

VENOSAN® 8000 ULCERFIT is a compression stockings system for the treatment of leg ulcers (crural ulcer). The treatment system consists of two specially knitted stockings. They complement each other in their medical effect and generate a special pressure configuration.

#### **BENEFITS**

- The liner is normally worn day and night. This stops wound dressings from slipping.
- The overstocking supports treatment during the day by guaranteeing the defined pressure.

#### VENOSAN® 8000 Size Chart (cm)

## SILVERLINE

Compression Support Socks

#### **EVERYDAY COMFORT**

SILVERLINE® offers long-lasting protection from foot odour and athlete's foot. X-Static®, the silver fibre, promotes hygiene and anti-microbial properties. Skin remains deodourized and free of bacteria and fungus—particularily effective in protecting against foot odour and athlete's foot. Cool and dry in Summer and warm in Winter, SILVERLINE® fibres wick moisture away from the skin for comfort in warm weather. X-Static®, the silver fibre, conducts heat in Winter to retain warmth. The silver in X-Static® yarns is an excellent conductor and eliminates static electricity.

#### SPECIFICALLY DESIGNED

- Enhanced comfort and fit with knitted top band
- Elimination of bacteria and fungus associated with foot odour
- Excellent regulator of heat

## SPORTSLINE

Compression Support Socks

#### PERFORMANCE SUPPORT

VENOSAN® SportsLine is a graduated compression support sock for active men and women. Coolmax® draws moisture away from the skin and helps regulate your body temperature to keep you cool.

#### WHY COOLMAX?

Coolmax® is the original performance fabric that's been helping top athletes push harder and longer but is now being discovered for the cool comfort it brings to everyday apparel.

Coolmax® has proven physiological benefits that, depending on your needs, can be applied to or found in a whole new range of clothing styles – from moderate and high-intensity performance apparel to everyday casual wear.

So consumers get the level of performance they need to stay cool and comfortable in any situation.

# Lymphoedema Compression Stockings, Ready Wraps and Garments

## **ReadyWrap**<sup>™</sup>

Clinically effective and easy-to-use adjustable compression wrap

## ReadyWrap™

## Clinically-effective<sup>1</sup> and easy-to-use<sup>2,3</sup> adjustable compression wrap

ReadyWrap is an adjustable variable compression wrap that provides patients and their caregivers an easy-to-use solution to support wound healing and oedema management. This wrap provides clinically-effective compression therapy while supporting patient compliance with its unique alternating strapping system. With ReadyWrap, you can be certain your patients will have an effective and comfortable garment that easily adjusts to their limb and donning abilities.

## Why choose ReadyWrap

## ReadyWrap is better for patients

Easy to use<sup>2</sup>, with colour-coded VELCRO® brand fasteners

- front-fastening short straps aid patient application and readjustment<sup>2,3</sup>
- overlapping straps minimise user application error and can prevent undue loss of pressure if the patient does not apply the product perfectly<sup>1</sup>
- low-profile design, allowing patients to wear their usual footwear<sup>4</sup>
- all products are available in black or beige

## ReadyWrap is clinically effective

Short stretch properties<sup>5</sup> – Therapeutic working and tolerable lower resting pressure

- positive outcomes for leg ulcers<sup>2,3,6</sup> and lymphoedema<sup>3</sup> patients
- effective in the management of recurrent swelling (oedema) and ulceration<sup>6</sup>
- excellent SSI of between 16 and 23, similar to inelastic bandages<sup>5</sup>
- 50% overlapping straps prevent gapping and can accommodate changing limb circumference to contain and control oedema<sup>3,6</sup>

## ReadyWrap is cost-effective

ReadyWrap can provide cost savings associated with<sup>7-11</sup>:

- time saved due to quicker and easier application of the device, in comparison to compression bandages
- reduced use of bandaging materials ReadyWrap can be washed and reused over a period of six months
- can be easily applied by the patient or their carer
- can reduce the need for clinic visits due to self-care at home

## ReadyWrap<sup>™</sup>

### Adjustable compression system for upper limbs

1 Pre-shaped curved straps adjust to the limb providing comfort and support

Inner liner arm sleeve for correct fitting

3 Colour coded VELCRO® brand fasteners makes application easy<sup>3</sup>

Contact your ReadyWrap distributor for Upper Externity Measurement and Order Forms

#### ReadyWrap Arm

- Double-sewn liner allows for easy, one-handed donning and doffing
- Padded wrist and elbow to eliminate compression hot spots and provide additional comfort
- Bilateral design contours to both left and right arms

## ReadyWrap™ LYTREMITY Measurement and Order Form

#### How to measure the arm:

Measure the arm in a supported and relaxed position with the elbow slightly flexed. The measurement points refer to the following anatomical landmarks:

#### Circumference points:

- cA widest width of the palm, just below the metacarpal phalangeal joints
- cC narrowest point of the wrist
- cE around the elbow joint and into the crease of the elbow
- cG top of the arm, just below the axillary crease

#### Lengths:

- IA-C the length between point **c**A (widest width of the palm, just below the metacarpal phalangeal joints) and point **c**C (narrowest point of the wrist)
- IC-G the length between point **c**C (narrowest point of the wrist) and point **c**G (top of the arm, just below the axillary crease)
- NB **c** = circumference, **I** = length

All length measurements should follow body contour.

All measurements to be in centimetres (cm).

Write your measurement results in the **box** adjacent to measuring point

## **VENOSAN®** Flat

Made-to-measure flat knit compression garments

## Flat Knit Compression Garments from VENOSAN®

Always the right choice.

The addition of VENOSAN Flat to the VENOSAN range, means that we are now able to provide a complete range of compression garments - offering high quality compression solutions for lymphatic & vascular conditions.

## Why choose VENOSAN®

- extremely high quality, made-to-measure compression garments
  - design, fabric and manufacturing
  - RAL certified
  - Oeko-Tex Standard 100

- a comprehensive range of upper & lower extremity garments
- 3 types of fabrics enhanced ability to select the fabric that best suits your patient's needs
  - VENOSAN Soft
  - VENOSAN Pro
  - VENOSAN Strong

The 3 **VENOSAN** Flat fabrics – ability to select the most appropriate fabric for your patient

#### **VENOSAN** Soft

Providing patient comfort and concordance with a softer fabric - whilst delivering effective compression.

- extremely soft & durable
- easy to don & doff
- latex free
- class 1–3
- low to medium stiffness

#### **VENOSAN** Pro

Providing the fabric stiffness ideal for containing chronic oedema and lymphoedema, whilst maintaining patient comfort and concordance.

- smooth & durable
- increased containment
- easy to don & doff
- class 2 & 3
- medium stiffness

#### **VENOSAN** Strong

Providing patients with the highest in fabric stiffness, ideal for patients who are requiring high level of containment.

- smooth & durable
- relatively breathable
- highest containment
- latex free
- class 3 & 4
- high stiffness

## **VENOSAN®** Flat When to use which product?

| Stiffness | <b>Class 1</b><br>18–21 mmHg | <b>Class 2</b><br>23–32 mmHg | <b>Class 3</b><br>34-46 mmHg | Class 4 > 49 mmHg |

## **VENOSAN®** Flat

# 3 fabrics across 4 compression classes - ability to select the most suitable product to your patient

## VENOSAN® Soft 1& 2

- when a class 1 or 2 soft stocking with low stiffness is indicated
- with fragile skin due to age or medication prescribed
- in case of Latex allergy or sensitivity
- with little or no oedema

#### VENOSAN® Pro 2

- when a class 2 firm stocking with medium stiffness is indicated
- with 'normal' skin and normal class 2 indications
- with some oedema

#### VENOSAN®

## Soft 3

- when a class 3 soft stocking with medium stiffness is indicated
- with fragile skin due to age or medication prescribed
- with little to moderate oedema
- in case of latex allergy or sensitivity

#### **VENOSAN®**

#### Pro3

- when a class 3 firm stocking with a little more than medium stiffness is indicated
- with 'normal' skin and normal class 3 indications
- with moderate oedema

#### **VENOSAN®**

#### Strong 3

- when a class 3 stocking with high stiffness is indicated
- serious indications
- standard option: T-heel
- in case of Latex allergy or sensitivity

#### **VENOSAN®**

#### Strong 4

- when a class 4 firm stocking with very high stiffness is indicated
- 'Heavy' worker for very serious indications
- standard option: T-heel
- in case of Latex allergy or sensitivity

## Measuring Instructions - Lower Extremity

#### NOTE:

- All measurements in cm
- c = circumference, I = length
- Unless specified, all length measurements should be longitudinal and should not follow body contours

#### Leg Measurements

Measuring points B-D can be done with patient sitting or lying. Above E to be measured with patient standing.

- cG Two fingers/4cm below Gluteal Fold for circumference
- IG Two fingers/4cm below Gluteal Fold to ground for length
- cF Mid Thigh for circumference
- IF Mid Thigh to ground for length
- **c**E Top of kneecap for circumference to avoid being tight at knee pit area
- IE Middle of Kneecap to ground for length
- cD Two fingers/4cm below Popliteal Fossa for circumference
- ID Two fingers/4cm below Popliteal Fossa to ground for length
- cC Widest part of Calf for circumference
- IC Widest part of Calf to ground for length
- **c**B1 Where Calf starts for circumference approximately 6-8cm above point B
- IB1 Where Calf starts to ground for length
- cB Smallest part of the ankle, above Malleolus for circumference
- IB Smallest part of the ankle, above Malleolus to ground for length
- cY Around Instep and Heel with foot dorsiflexed for circumference

#### **Foot Measurements**

- Around base of toes for circumference.
   Always in standing position, weight bearing.
- IA Horizontal finish: Back of heel to base of toes for desired length

#### Oblique finish:

IA medial From the back of the heel to the base of large toe IA lateral From the back of the heel to the base of small toe

IZ Closed Toe: Back of heel to tip of longest toe (Total length of foot)

#### **Panty Section Measurements**

#### Ask patient to put their hands on their waistline

- cT Waist circumference
- IT Waist to ground for length
- **c**H Largest circumference around the hips or stomach

#### Measure the following length along contours of body

- IGT Waist to 5cm/three fingers below Gluteal Fold
- IK¹T Front length from centre of waist (T) to 5cm above Gluteal Fold applying gentle pressure
- IK<sup>2</sup>T Length at the back from the waist (T) over the buttocks to the Gluteal Fold while applying gentle pressure and following contours

#### **Options**

Silicone band: Helps keep garment in place.

**Elastic band:** makes top edge more firm. Does not prevent garment from slipping down. No length adjustments required for silicone or elastic bands.

**T-Heel:** can prevent rubbing or a crease indentation on the anterior ankle. Standard option in VENOSAN Strong garments.

**Oblique G:** Garment is finished on an angle.

**Ankle inserts:** silicone ankle inserts can be requested. No additional measurements needed.

Curved knee: Knee area knitted in a bent position.

**Stocking in 2 parts:** No additional measurements needed. The overlap will provide no additional pressure. Overlap is 7cm in length, if you do not state otherwise.

## Measuring Instructions - Upper Extremity

#### NOTE:

- All measurements in cm
- **c** = circumference, **I** = length
- The patient should be seated when measurements are taken

#### **Arm Measurements**

Measure the arm with palm facing upwards. Mark the various measuring points on the inside of the arm.

#### Circumferences

Circumference measurements are taken with a slight bend in the elbow (approx. 150 degrees).

- cC Narrowest part of the wrist. Measure loosely.
- **c**D Mid forearm. The widest part of the arm between points C and E.
- **c**E Elbow. Circumference around elbow. Slight bend of approx. 150 degrees.
- **c**F Middle of the upper arm. Approximately half way between E and G.
- cG Upper arm in the axillary fold. This is the top of the garment beneath the axilla. To determine correct location it may be helpful to wrap a magazine or thick piece of paper around the arm, under the axilla. The top of the magazine or paper will be point G.

#### Lengths

Length measurements should be taken on the inside of an outstretched arm.

- ID Length from C to D
- IE Length from C to E
- IF Length from C to F
- IG Length from C to G

#### **Options**

Silicone band: Helps keep garment in place
Oblique G: Garment is finished on an angle.

#### **Hand Measurements**

Fingers should be spread when measuring the hand. Mark points A, B and C on the palm side of the hand in the middle.

#### Circumferences

- cA Around MCP heads. The widest part.
- **c**B Base of the thumb/thumb web space. Runs parallel to point A.
- cC Narrowest part of the wrist. Measure loosely.
- **c**C<sup>1</sup> Record circumference of where gauntlet will finish. Most commonly 6-8cm from C.
- **c**Z Circumference at the distal point on the thumb where the thumb covering will end. It is recommended to avoid locating point Z on the IP joint.
- **c**X Circumference at the base of the thumb. Take an oblique measurement over the base of the thumb joint.

NOTE: C-C<sup>1</sup> is manufactured with no additional compression

#### Lengths

IA-B Length from A to B ensuring hand is outstretched

IA-C Length from A to C ensuring hand is outstretched

IA-C¹ Length from A to C¹, where the gauntlet will finish. Commonly an additional 6-8cm to IA-C length

IZ-X Length from Z to X

# $\mathbf{ExoStrong}^{\mathsf{m}}$

Off-the-shelf flat knit compression garments.

# **ExoStrong**<sup>™</sup>

# Affordable alternative to custom garments.

ExoStrong™ is a full line of off-the-shelf flat knit gradient compression garments for the maintenance of lymphoedema or oedema during the day or periods of high activity.

For lymphoedema patients, flat knit garments are one of the primary self-care options. Where circular knit migrates into the skin folds, flat knit helps shape the limb and provides the high containment needed to maintain reductions made in therapy.

ExoStrong is a fraction of the price of custom flat knits — allowing patients to choose the right daytime garment at an affordable price.

#### Made in the USA

High-quality flat knit, manufactured at our headquarters in Milwaukee, Wisconsin.

#### Off-the-Shelf

Full line of garments readily available in a wide variety of sizes.

#### Supports mobility

High containment garment in a comfortable and functional design.

#### Quick and easy fitting

Only 2-5 measurements are needed to select size for each style.

#### Easy garment care

Machine washable and dryable to maintain fit for the life of the garment.

#### Service guarantee

Guaranteed to be free of material and manufacturing defects for the six-month life of the garment.

- Machine wash warm with mild detergent
- Do not use bleach or fabric softners
- Do not dry clean
- Use of a wash bag is recommended

#### Drying

- Tumble dry low
- Do not iron

# **ExoAnklet**<sup>™</sup>

Effective foot compression that easily fits in a shoe.

ExoAnklet™ is a compression anklet that provides focused therapeutic compression on the foot and ankle for the management of lymphedema and edema. This anklet is designed to provide comfortable and effective therapy, while easily fitting into your normal footwear.

- 1 Provides focused therapeutic 18-26 mmHg compression
- 2 Works well on its own, or in combination with other compression garments
- 3 Easily allows for normal footwear with its low-profile design
- 4 Soft, comfortable design, particularly over the toes and heel

All measurements in centimeters.

#### Indications

- Mild to moderate lymphedema
- Edema (non-blood related)

#### Material content

Nylon (polyamide), spandex (elastane)

Not made with natural rubber latex.

#### Care instructions

- Machine wash on permanent press in warm water
- Do not use bleach or fabric softener
- Do not dry clean
- Lay flat to dry
- Do not iron

# **TributeWrap**<sup>TM</sup>

Ease and comfort within your reach.

# TributeWrap™ Promoting skin health with proven foam technology.

TributeWrap is an adjustable compression garment with foam technology that nestles into the tissue to promote skin health<sup>1</sup>. It supports easy self-management of lymphoedema and oedema during low activity by comfortably adjusting to your patient's unique shape and lifestyle.

TributeWrap helps maintain gains made during therapy, while allowing the flexibility to support further reduction. Simply slide it on, adjust the straps, and cover with Sleep Sleeve for comfortable evening compression.

#### Explore the other great benefits of TributeWrap >

Sleep Sleeve Complimentary cover included with all styles to ensure the straps don't get tangled in the sheets.

TributeWrap™ Wrist to Axilla

#### Chevron channeling

Designed based on MLD principles of directing fluid to collateral pathways.

#### Adjustable strapping system

Easily conforms for the right, comfortable fit, and has flexibility to support further reduction.

#### Supports mobility

Angled straps at flexion points for a comfortable and functional design.

#### 6-month warranty

TributeWrap is guaranteed to be free of material and manufacturing defects for the six-month life of the garment.

"In the morning, I took it off and couldn't believe the difference! I wondered if this was a fluke, but I've noticed the same results every morning!

This is outstanding! It is easier to put on my daytime flat knit garments, and my legs have less fatigue throughout the day.

I am convinced TributeWrap does make a significant difference!"

John, Lymphoedema patient

# TributeWrap<sup>™</sup> NEW

# Self-adjustable compression foam garment.

#### **Indications**

- mild to severe lymphoedema, stage 1–3
- chronic oedema (non-blood related)

#### **Precautions**

- impaired sensation (peripheral neuropathy)
- cognitive impairment
- any open wounds should be dressed prior to application

#### Contraindications

- moderate to severe peripheral arterial disease
- arterial insufficiency or ABPI < 0.8</li>
- untreated congestive heart failure
- untreated infection (e.g. cellulitis)
- allergies or sensitivities to materials
- acute DVT
- severe cognitive impairment

# **Overview**

# Why choose Caresia™?

Caresia<sup>™</sup> garments are off-the-shelf bandage liners designed by medical professionals to simplify and enhance standard bandaging techniques by eliminating under layers of traditional bandaging. Caresia garments will save you and your patients time, while enhancing therapeutic outcomes.

Reduce time spent bandaging<sup>1</sup> and leave more time for Manual Lymphatic Drainage.

Foam technology helps soften tough fibrotic tissue<sup>1</sup> while remaining gentle on the skin.

Comfortable and wickable fabric.

Machine wash and dry for easy garment care.

#### **Indications**

- Lymphoedema, when used with bandages/other garments
- Oedema, (non-blood related) when used with bandages / other garments

#### Contraindications

- Arterial insufficiency or degeneration / ABPI < 0.8</p>
- Moderate to severe peripheral arterial disease
- Untreated congestive heart failure
- Untreated infection (i.e. cellulitis)
- Impaired sensation (i.e. peripheral neuropathy)
- Severe cognitive impairment
- Allergies or sensitivities to materials
- Not recommended for use on open (i.e. uncovered) wounds

#### MCP to Axilla

Simply slide on Caresia™ and bandage over top with short-stretch bandages such as Rosidal® K.

Bandages not included.

# Caresia™ How to Measure

#### Measuring for Caresia is simple and easy.

#### How to measure the Leg:

Ask the patient to stand, if possible. Mark and measure the leg as follows

#### Circumference points:

2cm below Gluteal Fold **c**G cС Widest part of Calf

**c**B 2cm Above Malleolus

#### Lengths:

17 Heel to base of Toes

ID ID The length from point D (2cm below popliteal fossa) to the ground

IG-E1 The length between point G (2cm below gluteal fold) point E1 (5cm above the Knee measuring from the centre point of the knee cap)

All length measurements should be longitudinal and should follow body contours.

#### How to measure the arm:

Measure the arm in a supported and relaxed position with the elbow slightly flexed. The measurement points refer to the following anatomical landmarks:

#### Circumference points:

Widest width of the Palm, just below the metacarpal phalangeal joints

cС Narrowest point of the Wrist

сF Widest part of the bicep

#### Lengths:

IA-C The length between point A (widest width of the palm, just below the metacarpal phalangeal joints) and point C (narrowest point of the wrist)

IC-G The length between point C (narrowest point of the wrist) and point G (top of the arm, just below the axillary crease)

# Caresia

## **Upper Extermity Garments**

#### Palm to Axilla

- Provides coverage of the arm from the metacarpals to the axilla, allowing for individual finger wrapping.
- Left / Right specific garments designed with channeling to mimic the collateral pathways.

# **SwellSpots**<sup>™</sup>

Oedema and fibrosis pads.

# **Overview**

# Why choose SwellSpots<sup>™</sup>?

SwellSpots, oedema and fibrosis pads are designed to address particularly troublesome areas by:

- softening tissue fibrosis/hardened skin
- filling concavities
- padding bony prominences
- diffusing pressure points
- protecting vulnerable areas

SwellSpots are available in a wide range of versatile shapes and sizes that tuck into compression garments or under bandages. Powered by Coolcore, these SwellSpots rapidly wick away sweat and moisture from the body, keeping it cool and comfortable.

#### What is Coolcore?

Coolcore is an innovative, chemical-free fabric that rapidly wicks away sweat and body moisture to regulate body temperature. Its chemical-free technology is built into the fibres of the fabric to withstand its cooling properties through wash and wear during the one year life of the garment.

88% faster wicking sweat and moisture

away from the body\*

55% faster drying time

for easier garment care\*

30% more cooling power

to better regulate body temperature\*

foam technology helps soften tissue fibrosis and hardened skin

creates multipoint compression profiles which help encourage lymphatic reabsorption

versatile shapes and sizes available off-the-shelf

the special Coolcore fibre helps wick away moisture

saves time from cutting your own chip bags

chevron channelling based on manual lymphatic drainage (MLD) principles of directing lymphatic fluid to collateral pathways

\* Tested by Hohenstein Institute, an accredited laboratory and research institute focused on testing and certifying textiles.

# Head-Neck Pad, Versi-Face Pad, Curved Pad & Crescent Pad

#### **Head-Neck Pad** (previously Reynolds)

Versatile pad designed for use on the face and neck by placing the Head-Neck Pad in various locations along the strap.

| Pad width (cm) | Pad height (cm) | REF     | Shipping unit |
|----------------|-----------------|---------|---------------|
| 16.5           | 7.5             | 104 544 | 1/5           |

#### Versi-Face Pad

Versatile pad designed for use around the eyes and under the chin.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 29         | 16          | 104 542 | 1/5           |

#### **Curved Pad**

Versatile pad designed for use around the ankle, patella, elbow, eyes and behind the ear.

| Width (cm) | Height (cm) | REF     | Shipping<br>unit |
|------------|-------------|---------|------------------|
| 5          | 13          | 104 527 | 1/5              |

#### **Crescent Pad**

Wedge-shaped pad designed to support lobules and skin folds.

| Length (cm) | Height (cm) | Diameter | REF     | Shipping unit |
|-------------|-------------|----------|---------|---------------|
| 51          | 6.5         | 9        | 104 547 | 1/5           |
| 61          | 6.5         | 11       | 104 546 | 1/5           |
| 71          | 6.5         | 12       | 104 545 | 1/5           |

# Carpal Hand Pad, Dorsal Pad, Rectangular-Tapered Pad

# & Knee-Elbox Shaper Pad

#### Carpal Hand Pad (previously Jo-Ju)

Pad designed to use at the thenar web space.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 4.5        | 7           | 104 537 | 1/5           |

#### **Dorsal Pad**

Pad designed to use on the dorsum of either the hand

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 10         | 14          | 104 529 | 1/5           |
| 10         | 19          | 104 528 | 1/5           |

#### Rectangular-Tapered Pad (previously Katina Small & Large)

Tapered pad designed for use at the ulnar aspect of the forearm, the IT band of the lateral thigh, and the anterior surface of the calf.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 11         | 36          | 104 534 | 1/5           |
| 18         | 42          | 104 533 | 1/5           |

| Girth range (cm) | REF     | Shipping unit |
|------------------|---------|---------------|
| 35–65            | 104 557 | 1/5           |

# Oval Pad, Ring Pad, Kidney Pad & Tic-Tac Pad

#### **Oval Pad**

Versatile pad designed for use inside the hand splints, along the ulnar aspect of the forearm, and the groin.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 8          | 19          | 104 532 | 1/5           |

#### Ring Pad

Versatile pad designed to fill crevices or lift lobules at the ankle, wrist and abdominal pannuses. The Ring Pad is available with or without a VELCRO® brand hook closure.

| Width (cm) | Height (cm) | Diameter | REF      | Shipping unit |
|------------|-------------|----------|----------|---------------|
| 60         | 6.5         | 9        | 104 558* | 1/5           |
| 60         | 6.5         | 9        | 104 559  | 1/5           |

#### Kidney Pad (previously Kimbe)

Versatile pad designed for use at the scapula, groin and neck.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 14         | 24          | 104 538 | 1/5           |

#### Tic-Tac Pad

Versatile pad designed to address larger areas of oedema and fibrosis, such as the back, abdomen and thigh.

| Size (cm) | REF     | Shipping unit |
|-----------|---------|---------------|
| 20 x 20   | 104 563 | 1/5           |
| 30 x 30   | 104 562 | 1/5           |
| 40 x 40   | 104 561 | 1/5           |

# Labia Pad, Female Genital Pad, Scrotum Pad & Circular Pad

#### Labia Pad

Tapered pad designed for the female genital area that can be worn inside or over underwear.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 33         | 53          | 104 551 | 1/5           |

#### Female Genital Pad (previously Sweet Spot)

Pad designed for use in the female genital area that can be placed inside or over underwear. The black side of the pad is made of non-skid material to help reduce shifting.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 7          | 15          | 104 560 | 1/5           |

#### **Scrotum Pad**

Tapered pad designed for the male genital area that can be worn inside or over underwear.

|   | Width (cm) | Height (cm) | REF     | Shipping unit |
|---|------------|-------------|---------|---------------|
| - | 34         | 53          | 104 552 | 1/5           |

#### Circular Pad (previously Sobol Small & Large)

Versatile pad designed for use on the chest wall, hip, anterior knee, posterior knee and abdomen.

| Diameter (cm) | REF     | Shipping unit |
|---------------|---------|---------------|
| 18            | 104 536 | 1/5           |
| 22            | 104 535 | 1/5           |

# Full Bra Pad, Lateral Bra Pad, Breast Pad & Palmer Pad

#### Full Bra Pad

Pad designed for use from the lateral chest wall toward the anterior midline of the chest, and can be worn inside a bra.

| Cup size* | REF     | Shipping unit |
|-----------|---------|---------------|
| A-B cup   | 104 556 | 1/5           |
| B-C cup   | 104 555 | 1/5           |
| C-D cup   | 104 554 | 1/5           |

#### Lateral Bra Pad

Pad designed for use on the lateral chest wall, and can be worn inside a bra.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 10         | 16          | 104 553 | 1/5           |

#### **Breast Pad**

Pad designed specifically for use in the breast area, and can be worn inside a bra. Its seamless design allows the Breast Pad to be used on either side of the chest.

| Cup size* | REF     | Shipping unit |
|-----------|---------|---------------|
| A-B cup   | 104 541 | 1/5           |
| C-D cup   | 104 540 | 1/5           |
| D-DD cup  | 104 539 | 1/5           |

#### Palmar Pad

Versatile pad designed for use on palmar surface of the hand, dorsum, concave shape of palm and inside a bra.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 7          | 8           | 104 531 | 1/5           |
| 8          | 9           | 104 530 | 1/5           |

# SwellSpots<sup>™</sup>

# Toe Pad & Thorax-Thigh Pad

Toe Pad (previously We'a Toe Small, Medium & Large) Unique digit spacers pad designed for comfort and separation of individual toes.

| MTP circumference (cm) | REF     | Shipping unit |
|------------------------|---------|---------------|
| <22                    | 104 550 | 1/5           |
| <25                    | 104 549 | 1/5           |
| <32                    | 104 548 | 1/5           |

#### Thorax-Thigh Pad

Versatile pad designed for use at the chest, groin, medial thigh and shoulder.

| Width (cm) | Height (cm) | REF     | Shipping unit |
|------------|-------------|---------|---------------|
| 52         | 22          | 104 543 | 1/5           |

#### **Care Instructions for SwellSpots**

#### Washing

- machine-wash with mild detergent on permanent press
- do not use fabric softener, bleach or other additives
- do not dry-clean

#### **Drying**

- tumble-dry on permanent press
- do not iron

#### **Materials**

- blend of: polyurethane, nylon, polyester, elastane
- not made with natural rubber latex

#### **Indications**

- lymphoedema (when used with bandages, e.g. Rosidal K/other compression systems, e.g. ReadyWrap)
- oedema (when used with bandages, e.g. Rosidal K/other compression systems, e.g. ReadyWrap)

#### Precaution

- allergies or sensitivities to any of the product materials
- care should be taken in patients using anticoagulant medication to assess tolerance

#### **Stocking Applicator**

A plastic coated metal stocking applicator to assist in putting on compression or surgical stockings. The frame has foam covered handles. The frame will hold the stocking/sock sufficiently open to allow the foot to be inserted. The stocking still needs to be fed over the frame using the hands but may eliminate prolonged bending to reach the feet. Available in one size and colour.

# **VENOSAN®** Silicone Dotted Donning Gloves

VENOSAN® silicone dotted donning gloves assist with applying stockings. Helps protect stockings from tears by finger nails. Available in sizes S/M and L/XL.

Product Codes: VC003 S/M

VC004 L/XL

# **VENOSAN® Coltex Roll-On Body Adhesive**

The perfect way to hold up your hosiery - 24 hours a day. Use Coltex Adhesive, and you can be absolutely certain your stockings stay up at all times. Whatever the shape of your legs and whatever compression stockings you want to keep in place, this gentle but effective glue is a real confidence booster. Easy to apply and machine washable, Coltex Adhesive also contains hamamelis extracts to gently soothe your skin.

# Ezy-As Compression Stocking Applicator

A rigid plastic structure designed to assist with fitting closed and open pressure garments to upper and lower limbs. It is available in three sizes. Available in three sizes, with an optional handle attachment.

Product Codes: YELLOW SUT - SM 260 MED

BLUE SUT - SM 261 LG RED SUT - SM 259 SM

# VENOSAN® Socks-Jet Donning and Doffing Aid

The patented donning and doffing aid for medical compression stockings. Features easy to use doffing and donning bars for stocking application. Simple for use by nursing staff, also for bedridden patients.

Product Code: AV002

# Eureka-On Compression Stocking Applicator

A compression stocking applicator for the leg or arm. It consists of a triangular shaped durable paper like slippery material with a central extended pull tab and eyelet holes on the sides for threading a thin tubular plastic lacing pin. Can also be used with pantyhose. Requires the use of two hands and for user to be able to reach their feet.

Product Code: EUREKA - ON

#### **Mediven Butler Off Compression Stocking Remover**

This long handled device assists with the removal of compression stockings, socks and normal pantyhose. It is lightweight and is gentle on the skin as it has no sharp edges. It features a T-shaped thick grip handle, metal shaft and a curved tongue-like base with a hook. It can also double as a shoehorn.

Product Code: 900-A

#### **Doff N' Donner**

Designed to assist with the application of open and closed toe compression stockings. Suitable for fitting and removing garments on the upper and lower limbs below and above knee. Features two components: a 'doughnut' shaped soft silicon device, filled with a leak proof fluid and a cone with suction cup base that allows the compression garment to be rolled onto the 'doughnut' device ready for use.

Product Codes: DDCONE

#### **Easy-Slide Compression Arm/Leg Stocking Applicator**

A compression stocking applicator for open toe or arm sleeve stockings. The easy slide is cone shaped and made of a slippery, paper like material with a pull loop at the tapered end. The Easy-Slide is pulled onto the arm or leg and the stocking is then pulled over it. The Easy-Slide is removed by pulling the loop.

| Leg     | Shoe Size | Code    |
|---------|-----------|---------|
| Small   | 34-37     | ES10-S  |
| Medium  | 38-41     | ES20-M  |
| Large   | 42-45     | ES30-L  |
| X-Large | >46       | ES40-XL |

| Arm    | Length | Code   |
|--------|--------|--------|
| Medium | 55.5cm | ES70-M |
| Large  | 62.5cm | ES75-L |

#### Sama® Compression Therapy

#### Sama® Frottee Tubular Padding

- 95% cotton, 3% polyamide, 2% elastane
- Soft, time-saving tubular padding
- Multi-elastic applies with no wrinkling, creases or folds
- Snug and accurate fit contours to all shapes, sizes and lengths
- Re-usable, will endure up to 20 washes at 40 degrees celcius depending on exudation, sterilisable
- Cut to desired length, no fraying
- Available in 10 metre rolls in four sizes (S, M, L, XL) and in four colours (white, pink, blue, green)

#### **Functional benefits:**

- Easy to apply, time-saving regime
- Increased comfort from padding layer, will not crease or wrinkle
- Allows the skin to breathe
- All products are washable and re-usable
- Cut and only use what you need from padding roll
